

Witness how others are unlocking the power of the Internet to rebuild their financial fortunes, multiply their incomes, get out of debt, and become their own boss in the process.

Hint: They are using many of the same web sites you visit every day.

Do you consider yourself a hardworking American who:

- is sinking into credit card debt?*
- is living in fear of financial ruin?*
- is bound to working long hours for little pay?*
- is too financially strapped to retire?*

Dear Aspiring Business Owner,

There is an untold secret that you should know about.

Every day in America, ordinary people, with very little business or marketing knowledge, are creating part-time and full-time incomes in the comfort of their homes by working on the Internet.

Get ready to find out how you can harness the power of Internet using online resources that you already know about. Resources that you use everyday such as eBay, Yahoo, Google, and MSN to generate incomes you've only dreamed about.

Let's face it. Owning your own business has always been part of the American dream. Regardless of the size of your business, there is a certain level of respect that goes with owning a business. Even an online Internet business. Even one that you can operate out of the comfort of your own home.

So, if you are tired of playing by the rules—getting an education, climbing the Corporate Ladder, and working long hours just to stay ahead of the taxman. Then it's time you did something about it. Time to start making the kind of money you deserve to live on—not survive on.

The Tom Oliver 16th Annual Internet Marketing Conference is where you need to be!

This March 26 from 10:00 a.m. to 3:00 p.m. at the Fort Lauderdale Marriott located at 3030 Holiday Drive in beautiful Fort Lauderdale, Florida.

And yes, that is my picture enclosed in this letter. You'll learn more about me at the conference.

Can you afford to let the economy dictate your financial future?

While others would argue otherwise, your financial future is not at the mercy of the national economy. As far as your own personal worth is concerned, the national economy is irrelevant.

Look at all of the people who emerged from the Great Depression, even richer and more successful: **Howard Hughes** (Hughes Aircraft Company); **J. Paul Getty** (oil empire); **Joe Kennedy, Sr.** (market investments); **Michael J. Cullen** (Kroger grocery chain); and **Charles Darrow** (invented Monopoly game).

What do all of these individuals have in common? They all looked around—despite the economy—and recognized an opportunity when they saw it.

And who would argue that the Internet is the 21st Century's Wealth Seekers answer to a better life, more income, debt-free living, and more opportunities?

Last year \$196.5 billion was spent online. Did you cash in on some of that?

You are probably thinking, *"Well, I probably would have had I known how to."*

Well, we are here to tell you that you probably already know how to do. While you may not have the total picture of how to put the entire program into place, you know more than what you think.

Do you:

- **have an email account and know how to use it?**
- **order your favorite books and tapes online?**
- **bid on online auctions such as eBay?**
- **know how to do a Google or Bing search?**
- **download music to your iPod or MP3 Player?**
- **download files and save them to your hard drive?**
- **upload photos and share them with friends?**
- **read the newspaper online?**
- **watch YouTube videos?**
- **have a Facebook, LinkedIn or Twitter account?**
- **use Skype or a softphone?**
- **send e-cards?**
- **use affiliate marketing to make part-time money?**

While this list is not complete, we think that you will recognize several things that you are currently doing every day.

So, why aren't you earning money doing them? This is why we know that you could be earning so much more money than you are now. And myself along with my hand-picked panel of experts are going to prove it to you.

"This year's gross sales are expected to well exceed what we earned last year. We know for sure that we will be easily making \$250,000 thanks to what we learned in 2009."

**Steve and Merry Haynes
Del Ray Beach, FL**

"I'm only 19 years old and a college student. I manage to work about two hours a day around my schoolwork. Last year, I did manage to still make \$30,000."

**Blake Smith
Plantation, FL**

"My first month made me almost \$4,020. My goal is \$5,000 which looks very achievable."

**Jake Stevens
Miami, FL**
